

CARLYNTON

SCHOOL DISTRICT

COMMUNITY EXCELLENCE CHARACTER

March 13, 2020

Dear Parents, Guardians and Community Members,

In response to the COVID-19 pandemic, Carlynton School District will be closing school, cancelling all classes, and activities. The District tentatively plans to reopen on Monday, March 30, 2020. Over the course of the next two weeks, we will re-evaluate and communicate additional information as it becomes available.

It is our intention to make these days up by utilizing upcoming scheduled breaks so students will have access to face-to-face instruction with our teachers. Specific make up days will be provided later. At the present time we have not received a waiver to reduce the number of required instructional days.

We will continue to communicate guidelines related to COVID-19 and the District's plans through email, website postings, and phone calls. We understand that such a closure is unprecedented, but we feel that the safety and welfare of our students, staff, and families warrants such measures.

We appreciate your patience as we work through these challenging times.

Sincerely,

John W. Kreider, Ed.D.
Superintendent of Schools
